DETAILED ACTION

1. This is in response to the applicant appeal brief filed 8/18/06.

Allowable Subject Matter

2. After further search and thorough examination of the present application and in view of the appellant's argument and amendments filed 3/24/06, claims 1-5, 8, 10, 12-23, are found to be in condition for allowance over the prior art.

3. The following is an examiner's statement of reasons for allowance: Although the prior art of record teaches a system and method for using biometric information for authentication, which includes providing reference biometric data from users, detecting other individual properties (i.e. skin temperature, blood pressure, etc.) that influence the reader during data capture, the prior art of record fails to disclose or fairly suggests storing both the biometric data and the other individual properties as reference information. These limitations in conjunction with other limitations in the claims were not shown by, would not have been obvious over, nor would have been fairly suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel St.Cyr whose telephone number is 571-272-2407. The examiner can normally be reached on Mon-Fri.
